It offers the functionality you need to get your product lifecycle management solution up and running quickly, along with all the features and functions mid-sized food

Get your business up and running quickly, reduce implementation risk, and build a foundation for continuous improvement within your product development process with Infor Implementation Accelerator for Infor Optiva.

and beverage manufacturers like yours rely on. By offering a faster, easier way to deploy Infor Optiva, the Infor Implementation Accelerator reduces risk, accelerates your time to value, and gives you unlimited options for expansion.

Implement faster, benefit sooner

With Infor IA for Infor Optiva, you get rapid results at a sensible cost. And you don't have to start from scratch. Infor Optiva allows industry-specific modification without customization to deliver the unparalleled product development power food and beverage manufacturers like you need. You can put that power in your hands sooner than ever before with Infor IA, which delivers predefined but easily configurable menus, processes, templates, training, and much more-using examples specific to the needs of food and beverage companies. All are based on industry best practices and extensive industry expertise. With Infor IA for Infor Optiva, you can put comprehensive core functions to use right away without reconfiguration.

Infor Implementation Accelerator can deliver the value and benefits of Infor Optiva faster and more cost-effectively than many full-blown implementations using traditional implementation techniques.

This focused, flexible solution gets your business up and running quickly, delivering:

- **Quick implementation.** By pre-configuring a significant number of core processes, Infor Implementation Accelerator is flexible enough to adapt to your unique requirements.

- **Industry best practice processes.** Infor Implementation Accelerator is based on the experience Infor has gained from hundreds of projects.

- **Reduced implementation risk and stress for employees.** With Infor's implementation methodology to refineyour preconfigured solution proposal step-by-step, fewer personnel need to be involved in developing the project scope and implementing the solution. Instead, you can focus on helping your users become proficient in Infor Optiva.

- **A foundation for future success.** Infor Implementation Accelerator is ideal for companies that want to implement Infor Optiva rapidly and easily, but envision growth ahead and need long-term scalability and continuous improvement.

- **Lower overall total cost of ownership.** With Infor Implementation Accelerator, your Infor Optiva solution can be less costly and less risky to implement, and deliver faster time to benefit.

Introduce new products quickly to meet changing customer tastes with Infor Implementation Accelerator for Infor Optiva.

Get lasting results

Infor Implementation Accelerator for Infor Optiva can be your final step-or your first step-in an on-going process of continuous improvement. As your business changes and grows, it's easy to expand the scale and scope of your Infor Optiva solution and integrate it more fully with other applications by:

- Growing from one or a handful of sites to a global company with multi-division, multi-site capabilities

- Increasing the complexity and scope of your product line

When you have to compete with the biggest companies in the industry and make your mark quickly, Infor IA for Optiva is simply the best choice for you today.
